CHAPTER 17
Section 3

# **Section Summary**

## **BIRTH OF THE AMERICAN REPUBLIC**

In the mid-1700s, Britain was a formidable global power. Key reasons for this status included its location, support of commerce, and tuge gains in territory around the world. Furthermore, the new ting, George III, began to assert his leadership and royal power.

Britain's growing empire included 13 prosperous colonies on the east coast of North America. The colonists shared many values. These included an increasing sense of their own destiny separate from Britain. In some cases, Britain neglected to enforce laws dealing with colonial trade and manufacturing.

Tensions between the colonists and Britain grew as Parliament passed laws, such as the **Stamp Act**, that increased colonists' taxes. The colonists protested what they saw as "taxation without representation." A series of violent clashes with British soldiers intensified the colonists' anger. Finally, representatives from each colony, including **George Washington** of Virginia, met in the Continental Congress to decide what to do. Then in April 1775, colonists fought British soldiers the Lexington and Concord, and the American Revolution began.

On July 4, 1776, the Second Continental Congress adopted the Declaration of Independence. Written primarily by **Thomas Jefferson**, reflects John Locke's ideas about the rights to "life, liberty, and roperty." It also details the colonists' grievances and emphasizes the Enlightenment idea of **popular sovereignty**.

At first, chances for American success looked bleak. The colonists ruggled against Britain's trained soldiers, huge fleet, and greater sources. When the colonists won the Battle of Saratoga, other ropean nations, such as France, joined the American side. With the lep of the French fleet, Washington forced the British to surrender at rorktown, Virginia, in 1781. Two years later American, British, and rench diplomats signed the Treaty of Paris, ending the war.

By 1789, leaders of the new United States, such as James Madison and Benjamin Franklin, had established a federal republic under the Constitution. The new government was based on the separation of powers, an idea borrowed directly from Montesquieu. The Bill of Eights, the first ten amendments to the Constitution, protected basic eights. The United States Constitution put Enlightenment ideas into tractice and has become an important symbol of freedom.
