In the 1770s, Russia, Prussia, and Austria each wanted Poland as part of their territory. In order to avoid war, the three kingdoms agreed to **partition**, or divide up, Poland. In 1772, Russia gained parts of eastern Poland, while Prussia and Austria took over the West. Poland vanished from the map.

Determined to expand Russia's territory, Peter also waged a long war against Sweden to win territory along the Baltic Sea. On this territory, he built a new capital city, St. Petersburg. It became the symbol of modern Russia. When Peter died in 1725, he left a mixed legacy. Although he had modernized Russia, he had used terror to enforce his absolute power.

Peter pushed through social and economic reforms. He also increased Russia's military power and extended its borders. However, Peter still needed a warm-water port. This would increase Russia's trade with the West. The nearest port of this kind to Russia was on the Black Sea, but Peter could not defeat the Ottoman empire, which controlled the region.

To modernize Russia, Peter began a new policy of **westernization**—the adoption of Western ideas, technologies, and culture. Many resisted change. To enforce his new policy, Peter became an **autocratic** monarch—one who ruled with unlimited authority.

All Russian institutions were under Peter the Great's control. He

executed anyone who resisted the new order. He forced the boyars—landowning nobles—to serve the state in civilian or military positions. Peter also stipulated that they shave their beards and wear Western-style clothes.

Over time, Peter also expanded Russia's territory to serve the state in civilian or military positions. Peter also expanded Russia's territory to serve the state in civilian or military positions.

In the early 1600s, Russia was isolated from Western Europe and had

maintained a medieval state. It was not until the end of that century that

a new tsar, Peter the Great, transformed Russia into a leading power.
